3. CHAIRMAN'S LETTER

Dear Shareholder,

The Board of Anteo Diagnostics Limited (**Anteo or the Company**) has pleasure in offering Shareholders the opportunity to participate in a non-renounceable rights issue of shares at 0.6 cents per share on the basis of 1 ordinary share for every 1 ordinary share held in Anteo, pursuant to the terms of this Prospectus. In addition, applicants will also receive 1 Option to acquire a fully paid ordinary share, at an exercise price of 1.2 cents, for every 1 Share taken up by them under this rights issue. The option to acquire a fully paid ordinary share will commence on the date of issue of the options and expire on 30 September 2010.

This rights issue enables Anteo to develop and grow its activities to the benefit of shareholders going forward. Accordingly your Directors strongly recommend that you support the issue.

Anteo has continued to keep shareholders abreast of its development activities through the regular issue of ASX releases also posted on the Company's website (www.anteodx.com) that are freely accessible by shareholders. These releases are available to shareholders on request to the Company.

By way of summary, this year the Company has focussed on consolidating its core strengths, understanding its potential markets and in moving towards the commercialisation of the Company's Mix&Go technology. In particular the Company has achieved the following:

- Appointed a new CEO, Dr Geoff Cumming, who has significant experience in business development and the commercial application of technologies. Dr Cumming has progressed several of the Company's projects and business development activities since joining.
- Entered into an agreement with Manawatu Diagnostic Limited (MDx) to develop assays for ovarian monitoring. This project is significantly progressed and both parties are working together to develop a roadmap to commercially exploit the assays or data derived.
- Undertaken a series of internal projects aimed at improving the scientific processes, validity and reliability of the Mix&Go technology on numerous bead formats. This work has resulted in improved credibility associated with the underlying science; advancing the historical position.
- As a result of the above work, the Company has entered into and progressed discussions with several international bead manufacturers and IVD players. We continue to work in parallel with several of these parties with a view to finalising licensing or other commercial arrangements as quickly as possible.
- Entered into a conditional co-operation and licensing agreement with DioSion Diagnostics Sdn Bhd in Malaysia for the use of Mix&Go on a limited number of applications, within a specified manufacturing territory. This agreement, if all the conditions are met, will provide significant short term cash flows to the Company and long term cash flows if the applications are successful.

The achievements of the Company in the 2009 year have highlighted the value of the Mix&Go technology and provided strong endorsement of the cost and competitive

advantages to be achieved from its use. The technical team continues to be integral to the commercialisation of the core technology as well as the ability to effectively execute assay development and other agreements. These factors mean the Company is well placed to achieve commercial and lasting outcomes for its shareholders.

The last twelve months have been tumultuous for capital markets in Australia and particularly for the biotechnology sector as investors move to more certain investments. The Company previously completed an underwritten rights issue in April 2008 and has successfully managed the use of these funds through the last 18 months.

The proceeds of this rights issue will be used for working capital as the Company focuses on achieving commercial agreements from its technologies.

Shareholders should note that the allotment and issue of Shares under this Prospectus will only be made upon receipt by the Company's share registry of the Entitlement and Acceptance Form accompanying the Prospectus, and otherwise in accordance with the instructions set out in the Prospectus.

I would also like to thank the shareholders for your continuing support.

James Henderson
Chairman

The Offer is non-renounceable. Accordingly, a Shareholder may not sell or transfer all or part of their Entitlement.

4.3 Fully Underwritten

The issue is underwritten by the Underwriter subject to the Underwriting Agreement (see Section 8.2 of this Prospectus).

4.4 Shortfall Offer

Any Entitlement not taken up pursuant to the Offer will form the Shortfall Offer, which will be subject to the Underwriting Agreement.

Shareholders who have taken up their Entitlement in full and non-Shareholders who wish to subscribe for Shortfall Securities are invited to complete the Shortfall Application Form accompanying this Prospectus and return it together with a cheque for the value of the Shortfall Securities. The balance of the Shortfall will revert to the Underwriter to be dealt with in accordance with the Underwriting Agreement.

A Shareholder or non-Shareholder (other than the Underwriter and sub-underwriters) will not be entitled to any Shortfall Securities if the allotment and issue of those Shortfall Securities will result in their voting power in the Company exceeding 20%.

If the number of Shortfall Securities applied for exceeds the actual number of Shortfall Securities, applications will be scaled back at the discretion of the Underwriter.

The Underwriter reserves the right, in their absolute discretion, to allot an Applicant a lesser number of Shortfall Securities than the number for which the Applicant applies for on their Shortfall Application Form or to issue no Shortfall Securities or to reject an application.

The Shortfall Offer is a separate offer made pursuant to this Prospectus and will remain open for a period of time as determined by the Company in consultation with the Underwriter not exceeding three months following the Closing Date, however investors are advised to return their Shortfall Application Forms by the Closing Date. The issue price for each Share to be issued under the Shortfall Offer shall be 0.6 cents being the price at which Shares have been offered under the Offer and the Attaching Options to be issued shall be issued in the same proportion as under the Offer.

4.5 Allotment of Securities

Securities issued pursuant to the Offer will be allotted as soon as practicable after the Closing Date and in accordance with the ASX Listing Rules and timetable set out in Section 1 of this Prospectus.

Securities issued pursuant to the Shortfall Offer will be allotted and issued in accordance with the Underwriting Agreement. Where the number of Securities issued is less than the number applied for, or where no allotment is made surplus application monies will be refunded without any interest to the Applicant as soon as practicable after the closing date of the Shortfall Offer.

Pending the allotment and issue of the Securities and Shortfall Securities or payment of refunds pursuant to this Prospectus, all application monies will be held by the Company in trust for the Applicants in a separate bank account as required by the Corporations Act. The Company, however, will be entitled to retain all interest that accrues on the bank account and each Applicant waives the right to claim interest.

Holding statements for Securities issued under the Offer (and Shortfall Securities issued to Shareholders under the Shortfall Offer) will be mailed as soon as possible after the Closing Date and in accordance with the ASX Listing Rules and timetable set out in Section 1 of this Prospectus.

4.6 Australian Securities Exchange Listing

Application for Official Quotation of the Securities offered pursuant to this Prospectus will be made in accordance with the timetable set out in Section 1 of this Prospectus and in any event within 7 days after the date of this Prospectus. If approval is not obtained from ASX before the expiration of 3 months after the date of issue of the Prospectus, (or such period as varied by ASIC), the Company will not issue any Securities and will repay all application monies for the Securities within the time prescribed under the Corporations Act, without interest.

The fact that ASX may grant Official Quotation to the Securities is not to be taken in any way as an indication of the merits of the Company or the Securities now offered for subscription.

4.7 Overseas Shareholders

This Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

It is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas Shareholders, the number and value of Securities these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. Accordingly, the Offer is not being extended and Securities will not be issued to Shareholders with a registered address which is outside Australia or New Zealand.

Shareholders resident in New Zealand should consult their professional advisors as to whether any government or other consents are required, or other formalities need to be observed, to enable them to exercise their Entitlements under the Offer.

4.8 Clearing House Electronic Sub-Register System (CHES) and Issuer Sponsorship

The Company will not be issuing share or option certificates. The Company is a participant in CHES, for those investors who have, or wish to have, a sponsoring stockbroker. Investors who do not wish to participate through CHES will be issuer sponsored by the Company. Because the sub-registers are electronic, ownership of securities can be transferred without having to rely upon paper documentation.

Electronic registers mean that the Company will not be issuing certificates to investors. Instead, investors will be provided with a statement (similar to a bank account statement) that sets out the number of Securities allotted to them under this Prospectus. The notice will also advise holders of their Holder Identification Number or Security Holder Reference Number and explain, for future reference, the sale and purchase procedures under CHES and issuer sponsorship.

Further monthly statements will be provided to holders if there have been any changes in their security holding in the Company during the preceding month.

4.9 Privacy Act

If you complete an application for Securities, you will be providing personal information to the Company (directly or by the Company's share registry). The Company collects, holds and will use that information to assess your application, service your needs as a Shareholder, facilitate distribution payments and corporate communications to you as a Shareholder and carry out administration.

The information may also be used from time to time and disclosed to persons inspecting the register, bidders for your securities in the context of takeovers, regulatory bodies, including the Australian Taxation Office, authorised securities brokers, print service providers, mail houses and the Company's share registry.

You can access, correct and update the personal information that we hold about you. Please contact the Company or its share registry if you wish to do so at the relevant contact numbers set out in this Prospectus.

Collection, maintenance and disclosure of certain personal information is governed by legislation including the Privacy Act 1988 (Cth) (as amended), the Corporations Act and certain rules such as the ASTC Settlement Rules. You should note that if you do not provide the information required on the application for Securities, the Company may not be able to accept or process your application.

4.10 Enquiries

Any questions concerning the Offer should be directed to Shane Hartwig, the Company Secretary, on (02) 8823 3100.

5. PURPOSE AND EFFECT OF THE OFFER

5.1 Purpose of the Offer

The purpose of the Offer is to raise up to \$1,080,659. The funds raised from the Offer are planned to be used in accordance with the table set out below:

Item	Proceeds of the Offer ¹	\$
1	Working Capital	978,628
2	Expenses of the Offer ¹	37,191
3	Underwriting Fee ²	64,840
	Total	1,080,659

Note:

1. Refer to Section 8.8 of this Prospectus for further details relating to the estimated expenses of the Offer.
2. The Offer is fully underwritten. The Underwriting Agreement is subject to standard terms and conditions, however, the Offer will proceed whether or not the conditions to the Underwriting Agreement are satisfied. There is also no minimum subscription to the Offer.

As there is no minimum subscription, where the conditions to the Underwriting Agreement are not satisfied or the Underwriting Agreement is terminated in accordance with its terms it is possible the Company may raise an amount that is only sufficient to cover expenses of the Offer in which case it will not be able to meet its objectives on the scale available with a greater amount of funds. However, the Company intends to continue with proposed operations using existing cash reserves and if necessary, may seek funding from alternative sources.

The above table is a statement of current intentions as of the date of this Prospectus. As with any budget, intervening events and new circumstances have the potential to affect the ultimate way funds will be applied. The Board reserves the right to alter the way funds are applied on this basis.

The principal effect of the Offer, assuming all Securities offered under the Prospectus are issued and no Options are exercised prior to the Record Date, will be to:

6. RIGHTS AND LIABILITIES ATTACHING TO SECURITIES

6.1 Shares

The following is a summary of the more significant rights and liabilities attaching to Shares to be issued pursuant to this Prospectus. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

General Meetings

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company.

Shareholders may requisition meetings in accordance with Section 249D of the Corporations Act and the Constitution of the Company.

Voting Rights

Subject to any rights or restrictions for the time being attached to any class or classes of Shares, at general meetings of Shareholders or classes of Shareholders:

- (a) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (b) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (c) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each Share held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote for each Share held, but in respect of partly paid shares shall have a fraction of a vote equivalent to the proportion which the amount paid up bears to the total issue price for the share.

Dividend Rights

The Directors may from time to time declare and pay or credit a dividend in accordance with the Corporations Act. Subject to any special right as to dividends attaching to a share, all dividends will be declared and paid according to the proportion of the dividend paid to the holder of a fully paid Share that the amount paid up on the Share bears to the total issue price of the Share (but any amount paid during the period in respect of which a dividend is declared only entitles the Shareholder to an apportioned amount of that dividend as from the date of payment). The Directors may from time to time pay or credit to the Shareholders such interim dividends as they may determine. No dividends shall be payable except out of profits. A determination by the Directors as to the profits of the Company shall be conclusive. No dividend shall carry interest as against the Company.

The Directors may from time to time grant to Shareholders or any class of shareholders the right to elect to reinvest cash dividends paid by the Company by subscribing for Shares in the Company on such terms and conditions as the Directors think fit. The Directors may, at their discretion, resolve in respect of any dividend which it is proposed to pay or to declare on any Shares of the Company, that holders of such Shares may elect to forgo their right to the whole or part of the proposed dividend and to receive instead an issue of Shares credited as fully paid to the extent and on the terms and conditions of the Constitution. The Directors may set aside out of the profits of the Company such amounts as they may determine as reserves, to be applied at the discretion of the Directors, for any purpose for which the profits of the Company may be properly applied.

Winding-Up

If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders. The liquidator may, with the authority of a special resolution, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any Shares or other securities in respect of which there is any liability.

Transfer of Shares

Generally, Shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the Listing Rules.

Future Increase in Capital

The allotment and issue of any new Shares is under the control of the Directors of the Company. Subject to restrictions on the issue or grant of securities contained in the Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of shares), the Directors may issue Shares as they shall, in their absolute discretion, determine.

Variation of Rights

Under Section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to Shares.

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

6.2 Attaching Options

Each Attaching Option gives the Optionholder the right to subscribe for one Share. To obtain the right given by each Attaching Option, the Optionholder must exercise the Attaching Options in accordance with the terms and conditions of the Attaching Options.

- (a) The Attaching Options will expire at 5:00 pm (EST) on 30 September 2010 (**Expiry Date**). Any Attaching Option not exercised before the Expiry Date will automatically lapse on the Expiry Date.
- (b) The amount payable upon exercise of each Attaching Option will be 1.2 cents per Option (**Exercise Price**).
- (c) The Attaching Options held by each Optionholder may be exercised in whole or in part.
- (d) An Optionholder may exercise its Attaching Options by lodging with the Company, before the Expiry Date:
 - (i) a written notice of exercise of Attaching Options specifying the number of Attaching Options being exercised; and
 - (ii) a cheque or electronic funds transfer for the Exercise Price for the number of Attaching Options being exercised;

(Exercise Notice).

- (e) An Exercise Notice is only effective when the Company has received the full amount of the Exercise Price in cleared funds.

- (f) Within 10 Business Days of receipt of the Exercise Notice accompanied by the Exercise Price, the Company will allot the number of Shares required under these terms and conditions in respect of the number of Attaching Options specified in the Exercise Notice.
- (g) The Attaching Options are transferable.
- (h) All Shares allotted upon the exercise of Attaching Options will upon allotment rank pari passu in all respects with other Shares.
- (i) Subject to the requirements of the ASX Listing Rules, the Company will apply for quotation of the Attaching Options on ASX.
- (j) The Company will apply for quotation of all Shares allotted pursuant to the exercise of Attaching Options on ASX within 10 Business Days after the date of allotment of those Shares.
- (k) If at any time the issued capital of the Company is reconstructed, all rights of an Optionholder are to be changed in a manner consistent with the Corporations Act and the ASX Listing Rules at the time of the reconstruction.
- (l) There are no participating rights or entitlements inherent in the Attaching Options and Optionholders will not be entitled to participate in new issues of capital offered to Shareholders during the currency of the Attaching Options. However, the Company will ensure that for the purposes of determining entitlements to any such issue, the record date will be at least 6 Business Days after the issue is announced. This will give Optionholders the opportunity to exercise their Attaching Options prior to the date for determining entitlements to participate in any such issue.
- (m) An Attaching Option does not confer the right to a change in exercise price or a change in the number of underlying securities over which the Attaching Option can be exercised.

7. RISK FACTORS

7.1 Introduction

The Securities offered under this Prospectus are considered speculative, and involve investors being exposed to risk. The Directors strongly recommend that potential applicants examine the contents of this Prospectus and consult their professional advisers before deciding whether to apply for Securities pursuant to this Prospectus.

There are specific risks which relate directly to the Company's business. In addition, there are other general risks, many of which are largely beyond the control of the Company and the Directors. The risks identified in this section, or other risk factors, may have a material impact on the financial performance of the Company and the market price of the Securities.

The following is not intended to be an exhaustive list of the risk factors to which the Company is exposed.

7.2 Risks Specific to the Company

(a) Credibility

Anteo is a relatively new market entrant and the technology it possesses is relatively untried. The Company has made significant progress in advancing the credibility of its technology over the last 18 months. This specifically includes the support of outcomes achieved from its technology and products by potential customers. However, until the Company achieves significant sales or a major licensing agreement, its credibility remains a risk.

(b) Regulatory Approval

Anteo's products or the use of Anteo's technology by third parties may need to pass government approval processes for use in clinical diagnostics. These approval processes, if required, may take several months or years to be completed, depending on the nature of approvals sought and the relevant jurisdiction. To overcome this, Anteo customers will work with products in the research sector and other segments not requiring specific approvals in parallel with any relevant regulatory approval processes.

(c) Competition

Anteo operates in a wide market segment ranging from global bead manufacturers to major IVD suppliers and research markets. Its products include the supply of proprietary coatings as well as various consulting and assay development services. Whilst the Company believes its proprietary coatings afford it a competitive advantage there are competitors that operate within the same market without regard for this. Most companies developing immunoassays purchase standard materials and engineer the solution chemistry to optimise their assays. Very little emphasis has been placed on the underlying materials themselves or their contribution to the assay being developed.

(d) Intellectual Property

Anteo has patent protection through granted patents and patent applications for components of its technology. However, there is a risk that:

- (i) some or all of the patents applied for may not be granted in some or all of the relevant jurisdictions; or
- (ii) intellectual property rights may be infringed or copied in a jurisdiction in which the patents are not recognised or easily enforceable.

(e) The Management Team

The skills of the chief executive officer, scientists and management team are critical to the success of the Company. While the chief executive officer and other key staff members all are employed under normal employment agreements, should a key member become incapacitated or in some other way cease their involvement with the Company, its performance could be adversely affected.

(f) Capital Requirements

While the Company believes it will have sufficient funds after completion of the Offer (assuming the Offer is fully subscribed or any shortfall is taken up by the Underwriter) to pursue its existing business plan. However, if the Company does not successfully conclude a licensing or other commercial agreement in the next 12 months, then the

Company will need to raise additional capital. There can be no assurance that the Company will be able to raise such capital when required or on favourable terms.

(g) **Legal Proceedings**

Although the Company is not aware of any legal proceedings currently on foot, legal proceedings can arise from time to time particularly regarding patent and intellectual property Infringements.

7.3 General Risks

(a) **Economic Risks**

General economic conditions, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's activities, as well as on its ability to fund those activities.

(b) **Market Conditions**

Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

- general economic outlook;
- interest rates and inflation rates;
- changes in investor sentiment toward particular market sectors;
- the demand for, and supply of, capital; and
- terrorism or other hostilities.

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

(c) **Dividends**

Any future determination as to the payment of dividends by the Company will be at the discretion of the Directors and will depend on the availability of distributable earnings and operating results and financial condition of the Company, future capital requirements and general business and other factors considered relevant by the Directors. No assurance in relation to the payment of dividends or franking credits attaching to dividends can be given by the Company.

(d) **Taxation**

The acquisition and disposal of Securities will have tax consequences, which will differ depending on the individual financial affairs of each investor. All potential investors in the Company are urged to obtain independent financial advice about the consequences of acquiring Securities from a taxation viewpoint and generally.

To the maximum extent permitted by law, the Company, its officers and each of their respective advisors accept no liability and responsibility with respect to the taxation consequences of subscribing for Securities under this Prospectus.

(e) **Investment Speculative**

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the Securities offered under this Prospectus

Therefore, the Securities to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those securities.

Potential investors should consider that the investment in the Company is speculative and should consult their professional advisers before deciding whether to apply for Securities pursuant to this Prospectus.
